

Dear Customers,

Please know that we continue to operate both retail and service. We feel that it is important to be there to ensure your access to proper sanitization for your swimming pools and spas. We ask that you refrain from coming to our stores if you are ill or have been exposed to Covid19. Please call in this event and we will do our best to help you get the products you need. We know that this is a difficult time and we will do what we can to help give your family some sense of normalcy, even if just in your own backyard. If we are at your home for opening, service, or routine maintenance, we ask that you maintain appropriate 6ft distance. We will communicate as necessary with you following your service by either phone, email or text. As the season starts, we will continue to keep you informed of changes being made to protect you, your family, and our employees.

We are all in this together.

Be safe.
